2012 Illinois Women's Health Conference

Conference Invitation

The Illinois Department of Public Health's Office of Women's Health (OWH), the Illinois Public Health Association (IPHA) and the 2012 Advisory Committee would like to extend an invitation to you to consider being a sponsor, exhibitor or attendee at one of the most prestigious conferences about women's health held in Illinois.

Reaching Illinois women is at the core of every activity conducted by the OWH. The office was established in 1997 and is now one of the largest state offices of its kind in the country. The OWH serves the women and girls of Illinois in several capacities by offering:

Illinois Breast and Cervical Cancer Program – A statewide program which offers free breast and cervical cancer screenings for women between the ages of 35 and 64 who have low incomes and no health insurance. Women diagnosed with breast or cervical cancer while enrolled in the program can receive treatment benefits through the Illinois Department of Healthcare and Family Services.

WISEWOMAN Program – The WISEWOMAN (Well-Integrated Screening and Evaluation for Women Across the Nation) program is funded by the U.S. Centers for Disease Control and Prevention (CDC). The Illinois WISEWOMAN program (IWP) aims to lower heart disease and other chronic disease risk factors through screening and lifestyle classes. The four weekly lifestyle classes teach women how to eat healthy, increase physical activity, problem solve, set goals, and also teaches them about the importance of a support system.

Women's Health Initiative Grant Programs – The OWH funds a variety of education programs offered through local health departments, not-for-profit community agencies and schools. The programs include multi-week curricula and/or health promotion activities that address cardiovascular disease, osteoporosis, menopause and other health-related issues. The goal is to help women and young girls to change behaviors that can lead to healthier lifestyles.

Carolyn Adams Ticket for the Cure – Funding for this grant program is provided through the Illinois State Lottery scratch-off ticket, which funds community grant programs as well as breast cancer research grants.

In addition to our attendees being health care professionals, many are recipients of the above programs and are eager to learn about new products, medical technology and devices, pharmaceuticals, nutrition, and the latest therapies and industry advancements that may help them enhance their programs or educate their clientele. We cordially invite you to join these dynamic, influential health professionals as an exhibitor or a sponsor on December 5-6, 2012, at the Illinois Women's Health Conference.

Don't miss this opportunity to network with health care professionals attending the conference. We look forward to seeing you in December.

Registration is now open. Register today!

2012 Conference Agenda

Wednesday, December 5, 2012

7:30 a.m. – 3 p.m. **Registration and Conference Walking Challenge Registration**

Due to the huge success of the walking program at the 2011 Illinois Women's Health Conference, we are again conducting the "Conference Walk Your Way to Health Challenge." Participants are encouraged to sign up and receive a pedometer to track their steps while in attendance at the conference. There will be a "one-day challenge" and a "two-day challenge." Prizes will be awarded at the end of each day!

7:30 a.m. – 8:30 a.m. **Deluxe Continental Breakfast**

7:30 a.m. – 3:45 p.m. **Exhibits Open**

7:45 a.m. – 8:45 a.m. **Pre-conference Workshops**

Pre-conference Workshop I – Behavioral Risk Surveillance System Report

Bruce Steiner, Illinois Department of Public Health, Springfield

As all levels of funding continue to shrink, it is more important than ever before to document the need for programs and when funding is obtained, show how people really benefit from the services provided. Strengthening grant applications can be achieved by using data from sources like the Behavioral Risk Factor Surveillance System to show, in terms readily understood, why programs are needed and how people benefit.

Pre-conference Workshop II – Prescription Drug Abuse – What Health Professionals Can Do To Help

Lisa Misevicz, U.S. Food and Drug Administration, Chicago

Deaths from prescription painkillers have reached epidemic levels in the past decade. The number of overdose deaths from prescription pain killers is now greater than those of deaths from heroin and cocaine combined. Learn how to communicate risks to patients, and how national initiatives are working to combat this growing epidemic.

9 a.m. – 9:30 a.m. **Welcome and Statement of Objectives**

LaMar Hasbrouck, M.D., M.P.H., Director of Public Health and

Brenda Jones, D.HSc, M.S.N., R.N., WHNP-BC, Deputy Director of Women's Health

9:30 a.m. – 10:30 a.m. **Opening Session**

The Affordable Care Act: What It Means for Women – Is Our Healthcare Changing?

Kenneth Munson, J.D., Regional Director, U.S. Department of Health and Human Services – Region V, Chicago

Appointed in October 2011, Kenneth Munson represents the Secretary of the U.S. Department of Health and Human Services (DHHS) in official dealings with state, local and tribal government organizations, and other external partners in Illinois Region V. Prior to joining DHHS, Munson held positions as deputy secretary of the Wisconsin Department of Health Services, president and CEO of Children's Service Society of Wisconsin, and several executive positions in the city of Milwaukee government.

Munson will discuss the Affordable Care Act and how it is putting women back in control of their health care.

10:30 a.m. – 11 a.m. **Health Information Break – Visit Exhibits**

11 a.m. – Noon **Concurrent Workshops – Session A**
